| I | <b><u>INTRODUCTORY REMARKS.</u></b> Col Sibbald welcomed everyone and indicated that MGen Neasmith would be arriving a bit late. He explained the agenda for the day and advised that he had heard on the ADM (Mat) chain that the TB instructions would be revised in the near future that would provide some relief on the level of approvals needed for events and TD. | Info |

| II | <p><b><u>Branch Advisor's Update.</u></b> Using a PowerPoint presentation, the Branch indicated:</p> <p>a. <b><u>Branch Leader's Intent:</u></b></p> <ul style="list-style-type: none"> <li>- The Branch Leader's Intent with focus on the primacy that we maintain our credibility within the Branches;</li> <li>- That we needed to be advocates for C2ISR, pushing the network operations aspect within the Cyber domain.</li> <li>- That we needed to proactively emphasize our C2 needs within the operational commander's plans.</li> </ul> <p>b. <b><u>Branch Governance.</u></b> The Branch Advisor emphasized that the Branch Leader wants a way to focus the energies of our serving members, Regular and Reserve, bring in the retired community as well as industry. He added that we now have a way ahead, and have made some progress towards that goal. We are looking more at a C&amp;E Institute rather than a Branch Senate because of the known connotations that the senate means in other Regiments and Branches. The Branch Advisor sent a paper and has received comments from the retired generals, BGen Richard, BGen O'Keefe, BGen Fraser, and BGen Charron who have all volunteered to further develop a discussion paper and present COAs for the Branch Leader. It is expected that a couple of months will be required to complete the paper.</p> <p><b>Action Item # 1</b> – BGens Richard, O'Keefe, Fraser and Charron to produce discussion paper by end May 2014 to the Branch Leader.</p> <p>c. <b><u>Branch History Project.</u></b> Phase II, the translation of Semaphore to Satellite in French, needs volunteers to see this project through. Discussion on possible COAs included: getting quotes on translation services and fund raising activities to raise the funds required; getting volunteers to translate portions of the book and then sending for editorial review with fund raising activities to pay for the review.</p> <p><b>Action Item # 2</b> – Branch Advisor to discuss possible options with the Branch Leader and identify the strategy that will be used to get this phase completed.</p> <p>d. <b><u>Branch Positions.</u></b> The Branch Advisor spoke to the changes using his slide package. He indicated that the Colonel-Commandant, the Branch Advisor and the Branch CWO would be moving on and the Branch Adjutant would be remaining on a part-time basis under Reserve Class A contract. He added that the Branch Leader might stay for one more year in his role as COS(IM)/Branch Leader. A question was posed on whether the rank of the Branch Advisor had to be colonel or if it could be a BGen or conversely a LCol.</p> <p><b>Action Item # 3</b> – Branch Secretariat will research and confirm the required rank for Branch Advisor.</p> <p><i>Secretarial Note – CF Mil Pers Instr 02/08 – para 4.5 indicates that the rank for a Branch Advisor is Col and in the case of small branches, LCol. No mention of BGen.</i></p> <p>e. <b><u>70<sup>th</sup> Anniversary of D-Day:</u></b> Date will be 6 June 2014. Markers will be laid on the beach as a tribute to the 359 Canadians who have died on the beach. The Branch Advisor indicated that as a Branch we have the opportunity to sponsor markers, and suggested that we might sponsor five, plus replicas at a cost of \$5K. Funds would be provided by the Museum Foundation and fund raising campaign would be established to replenish the funds.</p> | <p>Info</p> <p>Info</p> <p>BGens Richard, O'Keefe, Fraser, Charron</p> <p>Info</p> <p>Branch Advisor</p> <p>Info</p> <p>Branch Secretariat</p> <p>Info</p> |

|  | <p>Short fuse. Two months from now. Juno Beach Centre is looking for people to commit ASAP. One of the concerns during the discussion was the location of the markers once the event had concluded. The Branch Advisor to investigate and advise the BAC secretarily.</p> <p><b>Action Item # 4</b> – The Branch Advisor will obtain more details and provide to BAC secretary ASAP in order to meet the compressed deadline.</p> <p><i>Secretarial Note – On 02 April 14, BGen Richard (retired) advised that he already had sponsors for five Signals and Telecom, and after the summer period, the markers will go to the Museum.</i></p> <p>e. <u>Afghanistan History Book</u>. The Branch CWO explained the initiative and advised that he was looking for photos, anecdotes and stories. He emphasized that the book will be a Canadian Forces Afghanistan participation history, and that he would send out regular sitreps on the progress.</p> <p>f. <u>Rwanda Reunion</u>. Dates – 21-22 June 2014. Celebrating the 20<sup>th</sup> Anniversary of the mission in Rwanda. Those who served there are getting together – approximately 250-300 members of the C&amp;E Branch are expected with a ratio of 50/50 of serving and retired. Recommending \$200 in support from the Branch Fund. During the discussion, there was some opposition to providing subsidization to events like dinners. LCol Blais-Parent suggested that we should provide the money in the form of an investment, like asking the group to provide anecdotes, article, etc., of the mission in Rwanda so that it can be recording in the Branch History and historical vignettes. Since the BAC was not unanimous for the support, the Branch Advisor indicated that he would consult with the Branch Leader for a final decision.</p> <p><b>Action Item # 5</b> – The Branch Advisor will raise the issue with the Branch Leader for a decision.</p> <p><i>Secretarial Note – on 03 April 14, the Branch Leader concurred with the provision of \$200 from Branch Funds to support the Rwanda Reunion with the caveat that a historical vignette be provided.</i></p> <p>g. <u>Op DISTINCTION</u>. Commencing in 2014 and for the years up to 2021, there will be a series of significant events happening. The 150<sup>th</sup> Anniversary of Canada; the 100<sup>th</sup> Anniversary of Vimy Ridge; the 100<sup>th</sup> Anniversary of WW1 this year. The Government of Canada wants us to participate with a goal for the CAF to help raise awareness and promotion of national pride through activities and events. CJOC will have the lead. One of the key activities will be the Sentry Program, which entails sending guards that can be sent by units of the CAF each year between the 9<sup>th</sup> of April and 11 November until 2020. No additional resources or funds are available to support these activities, however. We as a Branch are willing to help guide the participation of Branch units through their environments. Communication will be key, and stories can be collected and promoted in the C&amp;E Newsletter, Branch Web site, etc. Within IM Gp, Col Wood is reviewing how we are going to contribute.</p> | <p>Branch Advisor</p> <p>Info</p> <p>Info</p> <p>Branch Advisor</p> <p>Info</p> |

| III | <p><b>CAF Cyber Excellence Award.</b> BGen Mazzolin explained the history of the award and the vision he has for the future. He emphasized that this was not an award exclusively for CFIOG, but with the Branch's growing assertion in Cyber, this is a Branch wide award, and for any rank level, having demonstrated the ethos of a Warrior in the Cyber Domain. In discussion, Col Allen suggested to reword it clearly to mean provision of CIS as well as the SIGINT aspect within Cyber. BGen Mazzolin emphasized that our mission is to provide the capability for the Commander to command and control and deny the same to the enemy, which makes this award relevant to the entire Branch. Col Lew asked if the award was only open to members of the Branch. After discussion, it was decided that the award would be a Branch award, but open to any MOC displaying the spirit of the award.</p> <p><b>Action Item # 6</b> – Criteria for the award will need to be developed and comments sent to the BAC and Branch Advisor.</p> | <p>Info</p> <p>DGIMO</p>  |

| VI  | <p><b>CFIOG Update.</b> Col Allen provided an update on the 291 AMOR – which has reassigned the MOC environmental split by decreasing the Army and increasing the Air Force numbers, and that this change was primarily driven by new projects being initiated. Cyber FD positions – CFNOC will be doubling in size. The allocation for this year will be 10 new Comm Rsch positions, with 19 overall. The Comm Rsch occupation to bid on five new positions, which has also been offered to the Int Branch. She recommended that we keep a close look on these positions and our ability to FG them. The challenge will be how many positions will belong to a particular occupation.</p> <p><b>Change of Command Parade.</b> The date for the Comd CFIOG change of command will be 30 May 2014.</p>                                                                                                                                                                                                                                           | <p>Info</p>               |
| VII | <p><b>CANSOFCOM Update.</b> LCol Marchand indicated that BGen Mike Rouleau was the new commander. He brings in a new vision and lots of energy. He thanked everyone for their support on the selection, recruiting and helping to broaden the reach for prospective new candidates for SOFCOM, which proved to be much more successful than in the past. Pushing the envelope with WGS. Task Force is going out. Financial pressures are also hitting CANSOFCOM. Culture of endless supply has gone. Introspection is being done to make sure they got it right. |      | <p>commander, will want to re-evaluate everything. The scope within CANSOFCOM might have gotten larger than we can afford. Command and Control Capital Project - next gate in the fall going in program definition. Mike Laury is lead on that initiative.</p> <p>Col Allen indicated that revision of the MOU that CFIOG has with CANSOFCOM dated 2005 MOU, pretty much created unlimited liability for CFIOG for SOF, needs to be reviewed. Rational for doing this MOU from MGen Neasmith – it was not known at that time the explosive growth of SOFCOM would be and the pressure that the MOU would place on CFIOG. He indicated that it would be worthwhile doing and that we need to put a limit on what can be provided by CFIOG. The Branch Leader indicated that he is willing to sit with BGen Rouleau to discuss this for mitigation. MGen Neasmith iterated that he is happy to have CANSOFCOM at the BAC. The wisdom learned at SOFCOM can be brought back to the Branch.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                         |

COA 1 – hold it with another organization running it; COA 2 – Postpone it. After a discussion, it was agreed that because there are very few forums to have these kinds of discussions that it would be beneficial to continue to run the Net Ops Symposium. Comd CFIOG agreed to run it again for 2014. Comd CFIOG did emphasize that the Net Ops Symposium cannot be viewed as a CFIOG only event, however. Cmdt CFSCE recommended that for cost savings, it should be held at CFB Kingston. Comd CFIOG emphasized that she volunteered to run it with the understanding that it was to be held in a single venue (Ambassador Hotel). With a dispersed conference, it might be too hard to achieve. The Branch Leader indicated that he is willing to look at options, and if there is a business case that would warrant the Ambassador Hotel, then he would support it. Going forward, the Branch Leader asked that Cmdt CFSCE be the “foot on the ground” and find appropriate facilities.</li> </ul> </li> </ul> <p><b><u>Decision</u></b> – For 2014, keep the Net Ops Symposium in October, but not adversed at finding other times of the year to run the Symposium in the future. The Branch Leader would like to think of the Symposium in a manner to help posture our community for future Cyber investments.</p> <p><b>Action Item # 8</b> – Cmdt to investigate the option of conducting the Symposium at CFB Kingston and provide result to Branch Advisor and Comd CFIOG.</p> <p><b>Action Item # 9</b> – Cmdt to assist CFIOG with planning and execution of the Net Ops Symposium providing the on-site assistance where possible.</p> <ul style="list-style-type: none"> <li>o <b><u>EX COMM PLAYER.</u></b> Maj Kelly, representing CO CFJSR, indicated that the Regiment had difficulties with running EX COMM PLAYER in October 2014 including the non-availability of ice time at the Base arena, suggesting that it be held in March 2015. The Branch Leader would like to see a more active PD being planned than briefings, PD to help justify the sporting event. Focus the PD at the tactical level.</li> </ul> | <p>Info</p> <p>Info</p> <p>Decision</p> <p>Cmdt CFSCE</p> <p>Cmdt CFSCE</p> <p>Info</p> |

Expansion project going very well. Following the recommendation of the review team, started negotiations with Construction Company Emmons and Mitchell. Next step is to identify time with the BComd to sign the contract. Within the next two weeks, contract will be signed. From then, initial time lines will be about one month to the right. If everything goes well, should have the extension built by Christmas 2014. The REME provided an extra \$450K of their own money to help build a more complete building. There is an MOU in place with the REME to help manage the space and expectations. The extra cash means that we have more money with the same MOU in place.</li> </ul> <p><i>Secretarial Note: On 07 April 14, the Museum Director advised that the BComd had signed the contract last week. The BComd is looking at everything done at CFB Kingston to ensure things are being done within current policies. There are two stewardship issues affecting the Museum – the key issue resides with the Base paying the salary for two staff – the Curator and the Librarian (approx. \$100K/annually). The other issue is that the Kit Shop is not a NPP organization. Options are being researched. Not decisions yet, but will need to address each of these two issues in the very near future.</li> <li>○ <u>Whiskey Festival</u>. Pressure from CTC Gagetown to cut activities not directly related to training resulted in the C&amp;E Band Master position being converted into an Ops Sgt position. With the pending loss of the incumbent, a Class A MWO position at the Branch Secretariat level was utilized to retain the person, allowing the 52 volunteer Garrison Band to continue to exist. Draft TORs were drafted and the administration to transfer the incumbent, WO Gagnon to the NDHQ PRL is on-going.</li> </ul> | <p>Decision</p> <p>CFJSR</p> <p>CFJSR and C&amp;E Branch Secretariat</p> <p>Info</p> <p>Info</p> <p>Info</p> <p>Info</p> <p>Info</p> <p>Info</p> |

|           | <ul style="list-style-type: none"> <li>○ <u>POET</u>. Lots of friction between CTC and 2 CAD in Winnipeg. The 132 day course run at the school is at issue. Money in short supply is the basis of the friction. Comd 2 CAD signed a letter to review POET delivery. Looking at whether CFSCE is the right location or other locations might be better. Cmdt did his own analysis, from his perspective - CFSCE is the best place to do the POET. The Cmdt is on the agenda to speak with Comd 2 CAD. He will brief MGen Bowes first. If CFSCE were to lose POET, CFSCE could lose more courses. MGen Bowes and Col Nixon agree with Cmdt that CFSCE is the best place. A new SLA will need to be delivered. From the cost perspective, it does not matter who delivers it, it will cost the same amount. The key issues are: joint – the same instructors to achieve joint effects, introducing our young students to joint reality. We do not want to miss this as a Branch. One of the biggest values is its jointness. The sticky point is control and trust. Col Lew believes that we now need to press for a joint champion. MGen Neasmith indicated that there is a better opportunity now that we are out of Afghanistan. Joint aspect is what we do. He indicated that he will speak to both generals, on the joint aspect of our Branch - and provide his views. Needs help of both Col Lew and LCol Lambert to help in his preparation, so that he can speak to both. He asked LCol Lambert to hold off on briefing the generals so he has a chance to speak with them, if at all possible. Cmdt is scheduled to contact MGen Bowes on 28 April and Comd 2 CAD in May.</li> </ul> <p><b>Action Item # 12</b> – Col Lew and LCol Lambert to provide issue notes to the Branch Leader on POET as soon as possible.</p> <p><b>Action Item # 13</b> – The Branch Leader will use the notes and then contact MGen Bowes and Comd 2 CAD to discuss the issue of joint training and the POET situation.</p> <ul style="list-style-type: none"> <li>○ <u>CFJSR 100<sup>th</sup> Anniversary</u>. | <b>IX</b> | <p><b><u>Next Colonel-Commandant – Update.</u></b> The Branch Leader indicated that although not yet staffed and approved by the Minister, we have a good sense that BGen Bill Richard (retired) is the apparent heir. He explained the process that he followed at the BAC, indicating that some have taken their names off the list voluntarily. He stated that BGen Richard has been very proactive in the community and the obvious choice. He added that we have a letter ready and that we were ensuring that all of the administration has been done correctly. He added that we would be asking our current Colonel-Commandant to bear with us and stay a bit longer than planned.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Info                                                                         |
