BRANCH ADVISORY COMMITTEE MEETING
MINUTES – 17 OCT 2014, ADM(IM) CONF RM (8CBS S001)

RECORD OF DECISIONS			
In Attendance	Rank	Name	Organization
Chairman	MGen	D.G. Neasmith	Branch Leader
Co-Chairman	Col	P.C. Sabourin	Branch Advisor
Members	BGen (ret'd)	J.J.M. Charron	Col-Comd
	BGen (ret'd)	W.S. Richard	Col-Comd (Designate)
	BGen	R.G. Mazzolin	DGIMO
	BGen	F.J. Allen	VCDS DGDS
	BGen	J.J.M. Girard	DGMS
	Col	T.S. Sullivan	Dir RCCS
	Col	J.C.F. Beaupre	Dir Air C&E
	LCol	D.J. Lambert	Cmdt CFSCE
	LCol	I.R. Marchand	CANSOFCOM J6
	CWO	M.C. Boislard	Branch CWO
	CWO	N.J. Dubois	Snr CWO Air C&E
	CWO	M.R. Bastien	CFIOG Gp CWO
	CWO	J.M.R. Guenette	SCWO CFSCE
	CWO	D.A. MacIsaac	CFINTCOM Comd Chief
Secretary	Maj	N.P. Trask	C&E Branch Adjt
EA COS IM	Maj	J.A. Roper	EA COS (IM)
Guest Speaker Absent	Dr.	S. Knight	RMC
	BGen	G.D. Loos	Comd JTFN
	BGen	P. Rutherford	Deployed Tampa
	Col	S.M. Moritsugu	Comd CFIOG

ITEM	DISCUSSION & ACTION ITEM(S)	ACTION
I	<u>Branch Leader's Update:</u> 1. Opening Remarks Transactional: a. Thanked BGen Charron for distinguished service over the last three years. b. Looking forward to C&E Week. Confirmed nominations for member and Sub Altern of the year. c. Discussed Friday's intent to launch CMCEN, to engage broader C&E community. CMCEN will hopefully create the mechanism to ease coordination efforts in the community. Not meant to create a hierarchy, but rather to create a focal point for the other various organizations out there. d. Discussed MGen Milne's background as a Signals Officer and looking forward to his contributions wrt Defence Renewal presentation at the upcoming C&E week. 2. Strategic Considerations: a. Discussed realignment in IM Group/DGIMO. BGen Mazzolin creating a CIS Operations Group, to create servicing provisioning part for the Canadian Armed Forces. Been seen and recognized by CJOC as the designate Cyber Component Commander. b. Identified the importance of CANSOFCOM J6 to be part of the BAC as they do unique stuff for the community. Benefits having him around the table. 3. CAF: a. Significant work on Canada First Defence Strategy reset. From Branch Perspective we are perhaps missing on one area, which is Space. We have a stake in space and probably bigger then we imagine. How do we position ourselves to support Space as we move forward? We have done a lot on Cyber but not so much on the Space domain. b. Challenges on security, and shared services Canada. c. Working very closely with Canadian Security Establishment. Relationship is getting better. 4. People Side: a. Army is wrestling with ACCIS occupation training and related pay issues.	Branch Leader Info

	b. MES ongoing on the Cyber front. c. RA/MA construct with 291 community, how we engage the Branch on that needs re thinking. d. Army, Air Force and CFIOG must continue to reach out and build support considering our wounded. Still gaps with our Reserve Force and retired community on the C&E side. e. Net Ops Symposium discussion. Need to figure out how we are going to approach the Net Ops symposium. Identified there is value, but we need to figure out how we approach it as we move forward.	
II	<u>Branch Office Update.</u> 1. BGen Charron: a. Indicated that he and BGen Richard have been actively completing their handover from the Col Cmdt perspective. b. Seeking interest in interim CMCEN Senate or executive. Indicated good feedback and interest. 2. Maj Trask: a. Introductory remarks including thanking those providing assistance for support during C&E Week planning. b. Three topics to discuss including Old Business, C&E Week and Branch Funding. c. Suggested to Branch Leader that we skip Old Business as we were pressed for time, and move on to C&E Week discussions and Branch funding. Branch Leader agreed. d. C&E week events were discussed and numbers identified. Change of Appointment Ceremony was discussed, including location. The Caruthers Gravesite Ceremony was discussed as well as Branch Briefing Day including CMCEN details and timings. e. Branch briefings were briefly discussed, MGen Neasmith was confident that the day would be productive. f. Sgts and Subalterns courses were discussed including guest speakers. g. EX NOBLE SKYWARD, HF Communications Exercise was discussed. Over 65 teams are scheduled to participate and as well as 5 Eyes units. h. 2014-2015 Branch Budget was discussed. (1) It was identified that due to unforeseen activity in the form of three Distress Fund grants of \$2.5K each, we would have to	Col Cmdt (outgoing) Info Branch Adj Info

	approach the Museum foundation to seek additional funding. (2) Branch Adjt identified that we need to determine the strategic long term vision of the Distress Fund. Including limitations and amounts for each fiscal year. It was identified that Branch Office was having a meeting with Museum Foundation to clarify way forward with the distress fund and to seek a top up. (3) The Arthur Child Fund was discussed. \$55.5K presently in the account and is not invested. (4) MGen Neasmith enquired as to whether or not the Arthur Child Fund has been completely repaid from the purchase of airplane tickets for the 2013 110th Anniversary Celebrations. Branch Adjt indicated that it had not been. Informed Branch Leader that the previous Branch Office membership had agreed to top up the Arthur Child fund to \$50k. Branch Adjt indicated that paying the air fare cancellation penalties was perhaps not in the spirit of the Arthur Child fund. Branch Leader indicated that the intent was originally to pay back in full the amount borrowed and to ensure we honor that promise. (5) Action Item #1: Branch Adjt took an action item to find out the exact amount to be repaid, to inform the Museum Foundation and to get the amount paid Back. (6) Secretarial Note #1: The Museum Foundation topped up the Branch Fund, including the \$2,6K for cancellation fees that had been borrowed to reserve the Airline Tickets for celebration 2013. Branch Adjt Deposited Check from Branch Fund to Arthur Child Fund. (7) C&E Br Garrison Band has ~\$13K in an NPF account. There is difficulty in paying for items and daily requirements for the Band. Need to figure out a way to quickly pay for items for the Band and what to do with the donations and honorariums given to the Band when it plays for various internal and external organizations. (8) CFSCE uses public fund to support Home Station Activities and the Museum (~\$2k for Home Station Activities and \$25k for the Museum). CFSCE was advised by CTC HQ that they would not fund those activities as part of the Business Plan process because the CA is very short on O&M money. Cmdt CFSCE has enquired to CTC HQ if this is the standard across all school houses. (9) Branch Leader enquired as to the amount of Donations every month that are donated to the Museum Foundation. Branch Adjt and Branch CWO indicated that it is ~\$9K per month. Branch Leader indicated that we need to ensure that we know what the value proposition if for Branch Members.	Branch Adjt
--	---	--------------------

Commented [s1]: This is not our issue to pursue.

	Honorary and Benefactors as well that we could perhaps extend such an honor to. MGen Neasmith indicated that we have already set precedence for such awards. Would need a clause for those outside the Branch who have made significant contributions. (b) Secretarial Note #3: MGen Neasmith informed CWO Boislard that all his proposals were accepted by the BAC.	Col-Cmdt to propose something for the next BAC.
III	Dr Scott Knight: Presented how he has developed the Electrical/Computer Engineering Department to better support the CAF Cyber FD efforts. 1. RMC changed their programs. They used to be almost interchangeable with other establishments such as Queens. More focus in the program now on supporting military specific requirements. 2. Discussed the in depth advancements in the EW courses and the equipment associated with that. Focus on Military engineering problems instead of generic engineering problems. 3. Discussed collaboration with 21 EW Reg. Bring down military personnel from the Regt as they can do some things that they can do in the Military. 4. Discuss some of the major changes to the program including the Cyber Component. a. Undergrads do a major two weeks cyber defence exercise with the National Security Agency (40-50 pers) Red Attack Team and various Canadian and US Colleges (9-10) as their final project. b. Dr Knight discussed the Cyber Model at RMC. By discussing with operators at the cold face, including current problem space today, they then utilize their research projects to help determine possible future problems. c. Run short courses for CFNOC pers. Graduate programs are growing. d. Graduates from the program get hired by CSEC, which is unfortunate for CAF but validates the value of the program. e. Dr Knight discussed the difficulty in not having enough full time trained staff to maintain and move the program forward and to make it robust. f. Dr Knight discussed the value in CFSCE as an important partner. 5. Col Sabourin indicated that he was going to be addressing the specific FTE requirements of RMC as part of his roles as D Cyber FD.	Dr Scott Knight Info Branch Advisor

IV	Home Station Brief: LCol Lambert: 1. Golf Tournament went very well. Not as many people as in the past however, we were still able to raise \$4K for the Museum. 2. Museum Expansion, still on track to be finished by Christmas. We will enquire as to what we can do in the new year to celebrate any milestones for the Expansion. 3. General Simpson identified some angst wrt the sale of the History Book "Semaphore to Satellite". Team worked very hard for four years and delivered. Feeling now is that the Branch has to take over and see the successful marketing and selling of the book. 4. Action Item #3: CO Home Station will take on lead of ways forward to see the successful selling of the Book. MGen Neasmith asked what audience, have we saturated internally, book stores could be approached. Determine where we are and how we move forward. 5. Branch Advisor asked what the profit Margin was on book sales. LCol Lambert indicated that the funds for the first 2000 books was received through history book committees own fundraising efforts, therefore it is 100% profit of \$10k for the first 2000 copies. 1400 copies remaining. BGen Allen enquired if we could approach PA and see if the book can be put on their list and given to non-military as a gift item. 6. LCol Lambert indicates we need to link all the sales ideas together and put together a marketing idea. 7. Action Item #4: LCol Lambert indicates he would put those ideas together in the form of a briefing note and submit it to the BAC in order to get feedback. BGen Richard suggested that instead of forming yet another committee to market the book, that we consider using the existing Heritage Committee under the Museum Foundation to look at the marketing strategy. LOO 3 Preserving and Celebrating our Heritage, and BGen Richard identified that this task fits well under that mandate. Use existing organization and give them the task to get working on that. MGen Neasmith supports BGen Richards' recommendation. MGen Neasmith urged Army G6, RCAF Advisor, CFIOG and CANSOFCOM organizations to also put the word down through their organizations echoing the fact that this is a major accomplishment in order to provide support. 8. Action Item #5: BGen Richard took an action item to work with Cmdt CFSCE and to get this moving. 9. Branch Adjt mentioned about the C&E Museum Staff not receiving recognition for 110 Celebration work, MGen Neasmith identified that when we do something to recognize the new expansion of the Museum, we could take that opportunity to recognize the work and effort of the staff for 110th Anniversary Celebrations as well. Think	LCol Lambert Info LCol Lambert LCol Lambert Col Cmdt
----	---	--

	about how we recognise the fast building of the expansion as well as the celebration piece. 10. LCol Lambert: Sought advice about the Henderson Family as major contributors to the Museum Fund. They donated a large amount (\$400k) in order to make various projects successful including “<i>Semaphore to Satellite</i>.” Family did get to meet HRH. Family somewhat feels disrespected in the fact that the family does not feel that the Branch continues to reach out to them. 11. BGen Richard indicates we could create an award to honor those leading in fund raising and name it the “Henderson Philanthropy Award” or something to that nature. To recognize members of our community who have contributed in a fundraising way in the overall objective of preserving and celebrating our Heritage. It renews itself and keeps it constant in our mind. MGen Neasmith indicated he liked the idea. He wanted to follow up as well as the concept of a Henderson Trust; also perhaps this could coincide with the Museum Expansion opening ceremony. 12. LCol Lambert briefed on the Whiskey Festival. - Contribute to our foundations - Connect with Canadians; about 500 civilians visit museum and VOM. - Bring in a lot of business for the community of Kingston. 13. MGen Neasmith identified that we should consider an award for Mr Boufard for his contributions, but we need to bring it in through an honors and awards process and not “shoot from the Hip”. 14. LCol Lambert Briefed that are moving the Kit Shop under the accountability of NPF. 15. 5 Museum Staff, two are NPF Employees paid by the Base, and two2 contractors are paid by the Museum Foundation. The Kit Shop Manager (Herb) is paid for by the profits of the Mercury Kit shop. This is going to change as all employees will fall under NPF.	
V	BGen Richard: Presented on the Heritage Foundation. - The Branch sponsored markers for five members of our Branch who died at Juno Beach on D Day as pPart of a memorial during this summer. - Follow on to ongoing rededication the Vimy gate memorial (Jun 2014) in Kingston, listed in book 7 of Book of Remembrance in the Peace Tower in Parliament.	Col Cmdt Info

Commented [M.2]: The Br Office has received a Br Commendation from the Cmdt CFSCE to that effect before Christmas. It need to be scanned and circulated for review. I was waiting for the work on the other two outstanding Br Commendations to be completed. Now that it is completed, I will do that.

Commented [s3]: Need to add an action item for Cmdt CFSCE to write a Branch Commendation. He said he would do it at the BAC.

	3. Kingston, National Wall of Remembrance to be placed next to the museum. From a Heritage perspective, proposal on the table to declare CFB Kingston and VOM as Home Station for the Intelligence Int Branch. 4. MGen Neasmith indicated his desire to consult with C&E Branch before we move forward. What are the Int and C&E Branch expectations before we move forward? Personal view is that C&E and Int have a nexus in the future, there are realistically there are rivalries and interesting cross sections such as our Comm Rsch (291'ers). 5. We have to realize that, very concerned about the reaction from the retired community. Need to start socialising on how we move forward with this. Bottom line is that MGen Neasmith has indicated to have this sorted by the summer 2015 for the September time frame. Perhaps looking for a part of the VOM being dedicated to the Intelligence Branch. Some 291'ers feel that they have closer affiliation to the Int Branch then with the C&E Branch. 6. Gary Hayes had the initiative to recommend HRH for the Order of Military Merit. VCDS Stepped in and determined it could not proceed without greater substantiations. MGen Neasmith recommended that we need to work on a way to create the full submission by reaching out to the other Br and Regts for which HRH, Princess Anne is also their Col-in-Chief. Need help by providing substance. a. Secretarial Note #4: Branch Advisor reached out to other units who also have HRH as Col-Cmdt to get more substantiation for the OMM submission. Some units have already provided information which will be put together by the Branch office with the intent to b. Secretarial Note #5: Survey Completed online at the CMCEN site, much positive feedback. Col Cmdt and Branch Office to Brief BAC on results at next meeting.	
VI	Dir RCCS: Col Sullivan 1. ACCIS Trade Evolution. Spec Pay Analysis, QS/TP board package in front of CDS before Christmas with recommendation for Signatures. More details to follow once a decision has been <u>taken</u>. 2. Training Side. CFSCE DP 1.1 Training. Looking at Transforming how we do trades training while at the same time CTC budgets are being reduced has created a perfect storm. 3. Post unit RSM positions, our CWOs do not necessarily fit the SRCP model. Director RCCS has asked MGen Neasmith to support a recommendation to CMP to be a little more flexible regarding	D RCCS Col Sullivan Info

Commented [M.4]: The Col-Cmdt indicated that he would work on this. I have seen correspondences with other Regts and Br on this issue asking for feedback on Princess Anne's contributions.

Commented [M.5]: In talking with CWOs MacIsaac, RCCS CWO, and Marchand, CMP CWO in Jan 2015, the file is still sitting on the CDS' desk.

	interpretation of the policies for our members. Presently 60 Captains short in the Signals Corp and this would assist in alleviating some of that burden. 4. Corps, Camp Flags at Signal Units. Whether or not we go back to a Corps March Pass. The Signal Corps wants to get stronger and strengthen the Branch, not diverge and make the Branch weaker.	
VII	Dir CELE Air: Col Beaupre 1. CWO Dubois, Trade Advisor discussed the ATIS Trade. a. Only 25% of quota for new intakes has been met which is a big concern. b. POET training delivery staying at CFSCE, SLA almost signed. Budgetary issues, POET training is very expensive. CFSCE working with PWGSC for contractor support. c. CELE Air Occupation is green, but worried about the future. Need an intake of 24 students a year to maintain the trade PML. Unfortunately, intakes only net 15%, or 3 DEOs this year. Hoping to recruit 19 by end of fiscal. Last year CFSCE only ran one course, 11 candidates, 4 were unsuccessful, meaning that 7 succeeded. 7/24 Successful. Post FRP bubble again, experience issues, people retiring and getting replaced by people with 10-15 years less experience. d. QSWB for CELE (Air) was completed in early December. 2. AOCCIS went very well this year. Product was very professional. 3. Col Beaupre disappointed wrt which organizations are sending CELE (Air) candidates to the Net Ops Course. Only nine names on list are from the Branch. For a joint course, Col Beaupre indicates that it doesn't make sense that over half of the positions come from Hard Air Force Organizations while they only employ 20% of all the CELE (Air) positions. 4. Ask for L1's support from ADM (IM) to get the right people onto the course.	D CELE Air Col Beaupre/CWO Dubois Info
VIII	CFIOG CWO: Bastien 1. 30 Oct visit from the CDS to present a Unit Commendation to CFNOCand for two other members on Station.2 for members. 2. Col Sabourin suggested wrt the CF Net Ops Symposium discussion that we look at conduct an additional day either before or after the IM/IT Service provider conference during the first week of May in Ottawa. As a place holder, we put it at end or beginning, good representation from bases and wings. In terms of the topics; Br Advisor recommendation look at three or four topics in terms of	CFIOG CWO Bastien Info

	where we should be going in the branch and have different groups come up with different recommendations. 3. The Assumption is that additional folks would be required to come to Ottawa. That however would depend on what the additional subjects are. Col Sullivan identified that the Field Force may be critical for discussions and would not necessarily be the same individuals that are attending the IM/IT Service Provider Conference. 4. Need to Link with Col Wood, CFSSG, for his Event Request Process depending on the Topics and Intended attendees. 5. Col Sullivan indicated that the Army is about to launch a new project on Land EW modernization, if there are linkages he would like to be made aware of those for strategic purpose and vision. a. Secretarial Note #6: IM/IT Service provider conference Cancelled. 6. Comm Research Trade: Reduction of the number of MCpl positions in favor of Cpl position. Reduced 210 MCpl position to 160, increased Cpl positions from 171 -214. 7.	
IX	LCol Marchand, CANSOFCOM J6: 1. Launch next week on recruiting road show. Tremendous support from COs, RSMs to find key positions, very successful. Want to educate everyone to the work and evolution that is going on in SOF. Next week to Christmas, coast to coast. 2. Large turnover APS 15 in CANSOFCOM. 3. Need support on the conventional side to have a sustainable model moving forward. 4. Running Second Special Operations Signallers course in Petawawa at this time. High Tempo, tremendous training event. 5. Snr Signals Representative in support of TF in Iraq is a Sgt. Doing amazing work and receiving international recognition, bringing much positive recognition to the Branch.	CANSOFCOM J6 LCol Marchand Info
X	Quick Round Table: 1. BGen Girard discussed AFCEA. Working on a letter to be signed by Branch Leader encouraging members to be part of the professional organization. 2. BGen (ret'd) Charron said farewell and thanked the BAC for	Info

	allowing him to be part of the discussions.	
	3. Col Sabourin indicated that there are Honours and Awards that were meant to be discussed that will be circulated by email.	
XI	<u>CLOSING REMARKS.</u> The meeting was closed at 1230 hrs and the Br Advisor and BGen Girard thanked members for their participation.	Info
