Secretary	Pte	M.C. Kim	C&E Branch Asst Adj
Absent	BGen	J.J.M. Girard	DGMS
	BGen	R.G. Mazzolin	USCYBERCOM V/J7
	BGen	P. Rutherford	DGIMO
	Col	J.C.F. Beaupre	CELE (Air) Trade Advisor
	Col	S.M. Moritsugu	Comd CFIOG
	CWO	J.E.P. Richer	ACISS Trade Advisor

	MGen Loos will approach the VCDS on this topic, and BGen Allen will research the minimum authority required for handing out different levels of mementos. The heritage committee has also been taking steps to market the S2S books electronically. f. The development of the cyber force was discussed. g. A letter from the DHH has been received which reinstated Begone Dull Care as the march of the RCCS. Furthermore the corps will return to the bugle call, instead of the pipes, as the traditional and customary call for mess dinners (e.g. Head table participants lead, all other diners follow).	Heritage Committee)
III	<u>Branch Update</u> Action Item #3: Br Chief discussed the annual C&E Branch Education Bursary. The objective of the bursary is to offer educational financial assistance to applicants, with eligibility extended to those applicant family members who contribute to the Museum Fund. This year, the bursary was opened to all who were contributing to the museum fund, vice being open to only serving members and their dependants. A proposal was made to change the name of the education bursary to better reflect the eligibility criteria. Also, a proposal to give priority to those applicants who's family member(s) have died during service to Canada be recognized. Br Leader approved both the proposals. a. CFSCE Cmdt raised the question if we would want to have recipients get sacrifice medals, if their family member(s) have died during service. Br Leader's initial response was a positive one, however we have to wait to see how the CF treats different types of war warriors in order to properly allocate sacrifice medals. - Member of the Year 2015 is Cpl Mark T. Flood (ATIS Tech). Subaltern of the Year 2015 is Capt Alexander M.M. Kisielius (CELE Air). Top ACISS MCpl is MCpl Alexandre Deneger. Top Comm Rsch MS Jason Alderson. Official announcement will take place at the C&E Branch Mess Dinners on 22 Oct 15, and at the Br Update Brief on 23 Oct 15. - The Br Chief gave an update on Branch Funds. Unfortunately there has been a declining trend in regular monthly mil mbr contributions via pay allotment, with contributions now at a level of <\$9K/mth. - As the CF is reviewing all CFAOs, there is a consideration of cancelling CFAO 2-10. This would mean that the authority to run a Branch would be given to the occupational authority for each Branch. However, this creates conflicts for those branches with more than one occupation (ie. Logistics, Engineers, C&E). Br Ldr assured that the CF will not cancel CFAO 2-10 until there's a	CWO Boislard (Branch Chief) BGen Richard (Ref'd) (Col-Cmdt) CWO Boislard Info (Branch Chief)

	ii. Col Holsworth briefed the BAC on the Vimy Ridge 2017 and Hill 17 initiatives. iii. Action Item #6: Br Leader endorsed the yearly themes proposed by the heritage committee, as well as the Vimy Ridge 2017 and Hill 17 initiatives. The Br Ldr indicated that there needs to be a fair mechanism to identify deserving members who should be granted subsidization and partake in the Vimy Ridge 2017 Professional Development tour.	BGen Richard (Ret'd) (Col-Cmdt) Col Holsworth (Ret'd) (Heritage Committee President) LCol Lemieux (Home Station CO)
VI	<u>Environment Updates/Issues</u> 1. RCAF Trade Adv updated the BAC regarding CELE (Air) Officers. a. 1 Col promotion. 5 LCol promotions. CELE (Air) is in the yellow. This is likely due to the miss in production target in fiscal year 2012/2013, as there were many OTs leaving the trade. b. There was a big gap in the SIP this year. The target was 37, however there will only be 16 grads for this fiscal year. Attrition rate is low for this year. d. (15855) First formal OJT is taking place for CELE (Air). TPWB took place in July 2015. e. The CELE (Air) course and AOCCIS course were zero loaded in Fall 2015 so that both courses can be updated; C4ISR and cyber will be implemented into the CELE (Air) course. 2. ATIS Trade Advisor updated the BAC for ATIS. a. ATIS is in the green for now, however there can be attrition in the future if recruiting centres fails to meet the SIP. 3. RCCS Dir updated the BAC for ACCIS. a. CST & IST are significantly lacking personnel. Plans are underway to speed up the training between DP 1, DP 1.1 and DP 2 to close this gap. b. Discussion for recruiting allowances are taking place for the ACCIS trade. 4. RCCS Dir updated the BAC for Sigs Officers. a. There's a significant shortage of Captains (65 short). It's	Colonel Stolz Info (CELE (Air) Trade Advisor Rep) CWO Dubois Info (ATIS Trade Advisor) Col Sullivan Info (RCCS Dir)

	estimated that there will be 33 candidates who will soon complete BSOC to fill some of this gap. b. Discussions for recruiting allowances are taking place for the officer trade. 5. As the Canadian Army is going back to divisional patches, there have been discussions about resurrecting the Royal Blue Beret which used to be worn by 3 Corps in the Regiment. The Br Ldr did not concur with bringing this tradition back. 6. There was a note about discussions being held to grant 21EW with an Honour Bearing status, as it can be argued that their sub-elements can be classified as being maneuver units. 7. There is a formal request to relook at the translation of the RCCS. It's currently translated as CTRC and the request is for this to be changed to CRTC. The Br Leader did not agree with making this change in translation (e.g. conflicts exist with the use of 15 CRTC in Valcartier as an existing Int resource, as well as commonly ref Cdn Radio & Telecomm Commission abvn) 8. Comm Rsch Trade Advisor updated the BAC for Comm Rsch. a. The trade is looking at attrition in the next several years. By the end of this year, the trade will be in the red. b. Review of spec pay will occur in April 2016. c. Comm Rsch will become heavily involved in cyber which will be a challenge to work around.	CWO Hildreth Info (Comm Rsch Trade Advisor Rep)
VI	<u>Round Table</u> 1. ATIS Trade Advisor suggested to establish another method for people to make voluntary donations to the museum (perhaps an online program), and use CMCEN to advertise this to generate more donations. 2. CANSOFCOM rep indicated the org will soon begin a recruitment campaign, and will extend an invite to the branch leaders for a site visit. CANSOFCOM rep requested endorsement on a number of projects from the Br Ldr, discussion for this will take place offline. 3. RCCS Dir mentioned that there are plans to set up an Army Signals attraction team. 4. Action Item #7: Br Ldr asked that the process by which we identify HRH Col-In-Chief Commendations be finalized.	CWO Boislard (Br Chief) Col Sabourin (Br

	5. Action Item #8: Br Ldr requested that the recognition for the S2S project committee be reviewed to ensure accuracy of recognizing each member for their contributions, and possibly provide indiv medallions to mbrs of the executive/editorial committee mbrs. 6. Br Ldr asked the BAC if there's something that we should be doing to integrate the Navy into the Branch? The Br Ldr also inquired if there's something that should be done to enhance the connection between the branch and civilian organizations. Both these ideas would support LOO 1. 7. Next BAC Mtg will take place early April.	Advisor) BGen Richard (Ret'd) (Col- Cmdt) Col Sabourin (Br Adv)
