RECORD OF DISCUSSION

INTRODUCTORY REMARKS

1. The discussion opened with a brief introduction from the Branch Leader.

INCOMING BRANCH APPOINTMENTS & INCUMBENTS

2. The Branch Advisor introduced the Branch Chief, Chief Warrant Officer Renay Groves, and the Branch Adjutant, Major Greg McDonald. The Branch Leader welcomed the new Branch Chief and Branch Adjutant.

C&E WEEK SCHEDULE

3. **Lesson's Learned:** The Branch Advisor identified the Lessons Learned from C&E Week 2023 and highlighted the work done this year to improve upon them.
4. **C&E Week Detailed Schedule** – The Branch Advisor presented the detailed C&E Week 2024 schedule. Coordination points were highlighted, such as the timing and movement requirements from Ottawa to Kingston on the afternoon of 23 October 2024. The Branch Advisor highlighted the Jr NCM Dinner, which will take place on 23 October 2024, and see the Branch Leadership and Kingston-based C&E unit Command Teams to participate at in both the meet and greet and townhall portion of the dinner. The Branch Leader stressed that other senior leaders of the C&E Branch are welcome to participate in the Jr NCM Dinner. The Branch Leader further highlighted that the Meet and Greets, both the one in the NCR and Kingston, should include a fireside chat. The importance of the communications plan for C&E Week was stressed and the Branch Leader highlighted that a Capture the Flag competition will occur the week prior to C&E Week. A list of Points of Contact was requested to be distributed to the Branch Advisory Council membership.

ACTION ITEM(s):

1. **Branch Office:** Distribute C&E Week 2024 Points of Contact to BAC membership.
2. **Branch Office:** Continue with the robust communications plan for C&E Week, including Teams messages, CMCEN, Facebook, etc.

BRANCH COMMUNICATION DISCUSSION

5. The Branch Advisor highlight the different activities both ongoing and planned for modernizing C&E Branch communications. The development of a questionnaire was highlighted to solicit feedback from C&E Branch members on topics such as what the future of C&E Week should look like. The Branch Chief noted that communication from the Branch office has increased to daily posts across social media, user activity on CMCEN is going up and a significant amount of positive private messages on from C&E Branch members to the Branch Chief are being received. The Branch Chief thanked the Cmdt of CFSCE for supporting the auction in support of the Jr NCMs Dinner with staffing power. A point was raised that the communications plan should include newer social media platforms to reach all members of the C&E Branch and that communications is the foundation for all that the Branch does. It was noted that the content of the message is equally important as the platform we send the message on. It was decided that

the Branch should focus on internal communications (within the membership of the C&E Branch) but that eventually there should exist an external communications plan (how we communicate with the CAF writ large, public, etc). Further, to understand progress the communications strategy requires the identification of metrics. The discussion concluded with highlighting some of the future planned engagements, such as the Kingston Frontenacs, as well as the emphasis on communicating throughout the year about how the Branch supports members (e.g. testimonials from bursary recipients).

ACTION ITEM(s):

1. **Branch Chief:** Investigate use of new social media platforms for the communication plan.
2. **Branch Office:** Develop metrics for communications plan.

125TH ANNIVERSARY PLANNING DISCUSSION

6. The Branch Advisor indicated that the Class A C&E Branch Affairs Officer position Establishment Change (EC) was approved to change the rank to Lieutenant-Colonel. The position is expected to be filled in June 2025. The agreement with the Royal Canadian Corps of Signals (RCCS) is that the eventual incumbent would support both the C&E Branch and the RCCS in preparation for the 125th Anniversary.

BRANCH FINANCIAL UPDATE

7. The Branch currently has \$16k and has budgeted \$15k. With slippage, the expenditures until the end of the fiscal year is expected to be \$8k. This will leave the Branch with approximately \$8k carryover in the bank to the next fiscal year.

C&E MUSEUM UPDATE

8. The C&E Museum provided comprehensive updates on several key areas. A financial update covered the period up to summer 2024, highlighting the impacts strike had and the increase in foot traffic at the museum. A museum expansion proposal, which was briefed at the last C&E Senate, was also included.

BRANCH HONOURS & RECOGNITION

9. The Branch Chief highlighted the lone Educational Bursary recipient and the dates of the boards for Subaltern of the Year and Member of the Year. The Trusted to Serve/Fighting Spirit award was also announced, where a member of each OFP granting course would be selected for the award, as well as an instructor who would be selected through student nominations. A discussion occurred highlighting the importance of communicating these winners to the Branch membership and securing testimonials from recipients of Branch funds. The BAC was reminded that the Subaltern of the Year and Member of the Year would be presented at C&E Week and that opportunities could be made for the Occupational Advisors if they wanted to present awards at C&E Week. Finally, it was stressed that Cyber Operator OFP granting courses need to be included in the Trusted to Serve/Fighting Spirit award.

ACTION ITEM(s):

1. **Branch Chief:** Secure testimonials from Branch Fund recipients.
2. **Occupational Advisors:** Inform Branch Advisor or Branch Adjutant if wanting to present other awards at C&E Week.

ENVIRONMENTAL BRIEFS / SITREP:

10. The Occupational Advisors and Senior Trade Advisors provided updates on all Branch Trades highlighting their current states and initiatives. Highlights of the conversation include:

- a. The ATIS Tech uplift plan;
- b. The expansion of positions CELE will inherit based on their high TES vs PML rate;
- c. CAPCON will focus on the expectations placed upon the RCAF Telecom Wing occupations by the RCAF;
- d. Discussions on overcoming security clearance challenges for new recruits;
- e. Initiation of the SIGS MES Review;
- f. RCCS dress uniform changes and proposals;
- g. The RCCS NCM trade restructure is almost complete with the ongoing RCCS WO Qualification Standard/Training Plan Writing Boards;
- h. Preparation at CFSCE to handle 110% of Strategic Intake Plan (SIP) surge;
- i. Successful training of 129 Sig Op Ptes by the Army Reserves;
- j. RCCS Reserve occupation restructure questions;
- k. Current radio issues facing the Army Reserves;
- l. Future work on developing SIGINT Spec and Cyber Operator career paths;
- m. The SIGINT Spec birthday on 1 October; and
- n. New trade identifiers for both SIGINT Spec and Cyber Operator.

OPEN FORUM / ROUND TABLE / QUESTION PERIOD

11. The Branch Leader announced that the standup of the Cyber Command will occur on Thursday, 26 September 2024. A discussion ensued on the Branch Distress Fund, re-emphasizing that it is intended to provide rapid relief when no other tools are available due to things like scope, scale or speed (e.g. a members house burns down), that it is open to any member of the C&E Branch, and that we need to better communicate it's availability and criteria to members. The discussion then evolved to increasing contributions to the Branch Fund through P070 – C&E Museum Foundation. Ideas were proposed including emulating what other Corps and Regiments do and clarifying that the money goes to the C&E Foundation, not directly to the museum, as well as creating a standardized bulletin to remind members how the Branch Fund can support them, their peers and subordinates, and promoting contributions to the Branch Fund during NDWCC. Contributions will be discussed further.

ACTION ITEM(s):

1. **Branch Office:** Develop standardized bulletin to inform membership of Branch Fund to be reviewed at the C&E Senate.

2. **Branch Office:** Develop a visit plan for General Officers and Colonels for C&E Week.

CLOSING REMARKS

12. The Branch Leader thanked the BAC membership for attending and contributing to the discussions. It was noted that there was a lot to be celebrated based on the discussions during the BAC.

C&E Week Schedule

Branch Advisor

Lessons Learned - C&E Week 23

Negative

- Schedule and associated MS Teams links was provided too late with too little detail. **Detailed Instruction to be signed soon, MS Teams being populated as we speak.**
- Improve the schedule presentation on CMCEN, current GUI does not allow for easy understanding event timings/dates/locations. **See above.**
- Additional advertisement required for: NCR Meet and Greet, Working Groups, Subalterns and Sergeant's Course. **Once instruction signed, will be advertised on CMCEN, social media and CFSCE's Digital Campus**
- Kingston events not well attended, particularly when in conflict with the G6 Conference. **Presentations in NCR, minimal overlap with RCCS Conference**
- Additional coordination between Branch and G6 required to enable both conferences to co-exist. **See above.**
- Look at obtaining outside donations to better fund the event. **Jr NCM Dinner funding through auction.**

Positive

- Combined dinner works create, continue to conduct it on Friday
- Maintain Ottawa and Kingston presence/schedule
- Kingston PD Sessions had excellent speakers
- Require Keynote and Mess Dinner Guest of Honour recommendations early

STRIKE IMPACTS (JAN-APRIL 2024):

- ▶ Less wages paid out (\$174,658.11 actual vs \$208,569.40 budgeted) – 23/24 LOOKS like a good year.
- ▶ HOWEVER, retro pay for all of 2022-2024 paid out in FY24/25 – this FY will LOOK like a bad year. FY24/25 did budget for about \$20,000 in increased wages though, which is close to final contract settlement. With 23/24 surplus though, we will still be ahead.
- ▶ Had budgeted \$16,830.00 and actually paid out \$24,765.14 (\$7,935.14 over budget due to retroactive pay).
- ▶ Museum closed Jan-April. Mercury shop reopened 29 April, gallery reopened 13 May.
- ▶ Shop sales down (Jan-March sales were only \$4874.89 vs \$74,440.18 in the same period for 2023).
- ▶ Visitation down (difficult to assess because we are recovering from Covid, but 2023 March of the Museums drew 800 people and 2024 was cancelled).

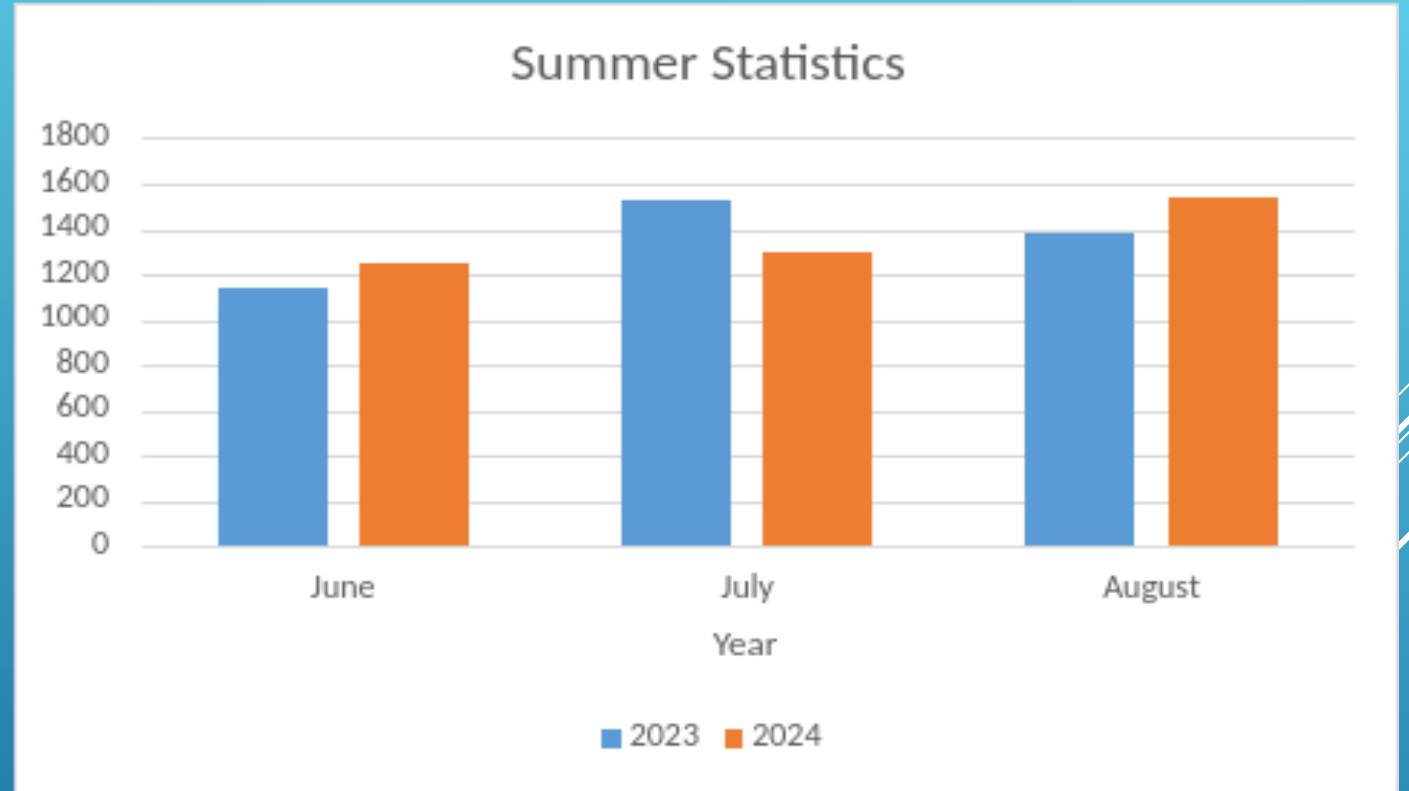

ATTENDANCE UPDATE:

*COVID-19 IMPACT NOTED

APRIL-JUNE ATTENDANCE: 2496

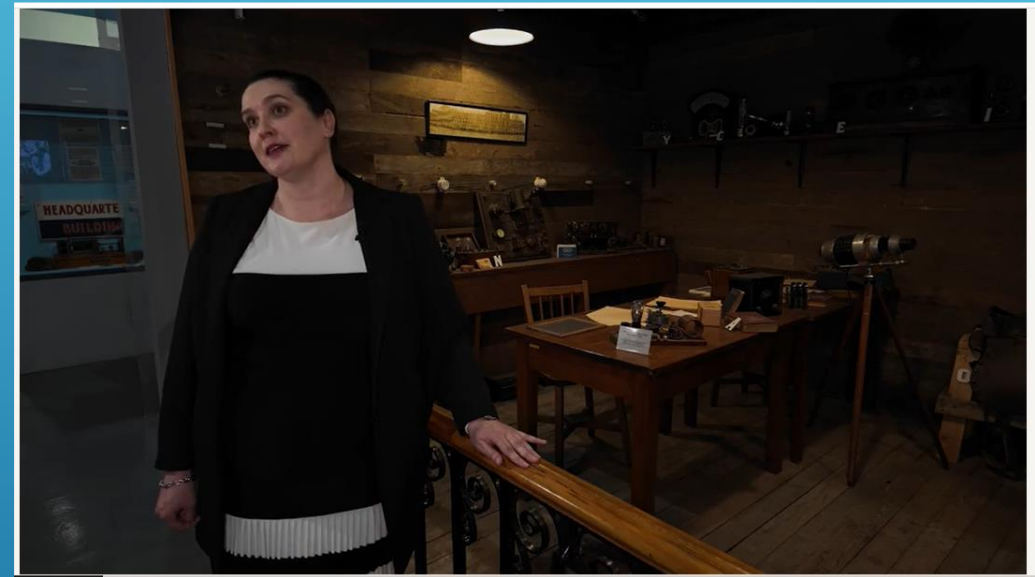

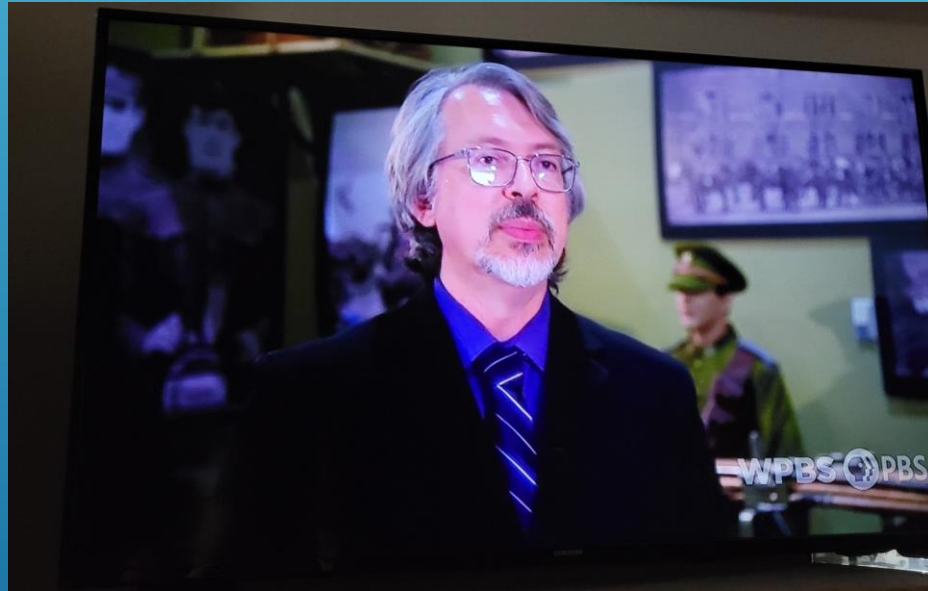

- ▶ Very good considering museum re-opened May 13 post-strike
- ▶ Summer numbers continued strong upward trend
- ▶ 1302 and 1536 in July and August
- ▶ Considering weekend openings through to Thanksgiving in 2025
